RE-RITE™

Instantly convert scanned documents to editable files

Office Automation Software

Transform your office into a less-papered zone with RE-RITE™ office automation software.

RE-RITE™ converts scans to:

- PDF (Adobe Acrobat®)
- DOC/RTF (Microsoft Word®)
- EXCEL/CSV (Microsoft Excel®)
- HTML (Web pages)
- eBOOK (Microsoft Reader®)
- TABULAR DATA
- TEXT (Formatted/Unformatted)
- Received Fax to PDF®

... and delivers these digital files to either a network drive or your email inbox.

RE-RITE™ further enhances your Toshiba e-STUDIO MFP by allowing it to automatically convert scanned paper documents into editable and searchable files. Think of the time you'll save storing, finding, re-typing and re-formatting documents.

Advanced OCR (Optical Character Recognition) technology drives RE-RITE™. It's accurate, efficient and simple to use.

The process is completely automated, here's how it works ... documents are scanned into your Toshiba e-STUDIO MFP, moments later they arrive at your desktop via email or a selected network drive.

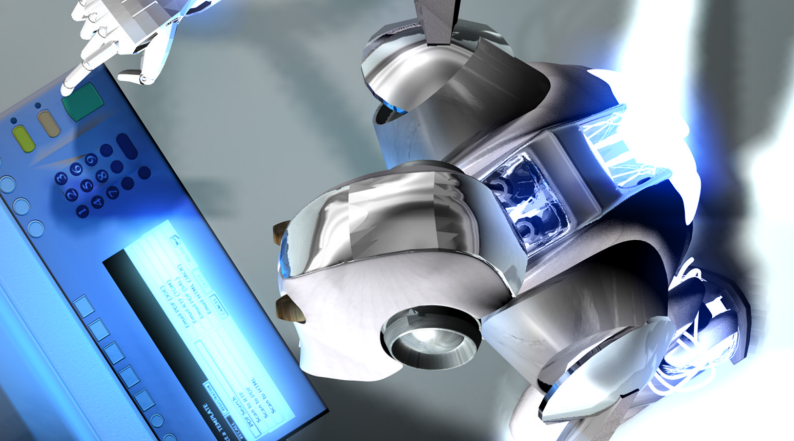

No user intervention is required, just open and edit with your favourite desktop application such as Microsoft Word®, Excel®, Adobe® PDF or even HTML web pages.

RE-RITE™ is a server (host PC) based application making it available to many users for the cost of a single license.

SYSTEM REQUIREMENTS

Minimum System Requirements

- Processor: Pentium® III 500Mhz
- RAM: 128MB
- Free Disk Space: 100MB
- Operating System: Windows 2000/XP/2003 (32bit)
- Screen and resolutions: 15" or 17" & 1024 x 768
- CD ROM required: Yes
- Network Card: 10/100/PCI
- Dedicated Server: Optional but recommended with 600MB free space
- Multifunctional Toshiba Device:
 - e-STUDIO230/280 + Scan
 - e-STUDIO350/450 + Scan
 - e-STUDIO520/600/720/850 + Scan
 - e-STUDIO281c/351c/451c
 - e-STUDIO550/650/810 + GL1020
 - e-STUDIO35/45 + GL1010/Scan
- Mouse: Microsoft or compatible pointing device

Recommended System Requirements

- Processor: Pentium® IV 2.4Ghz or higher
- RAM: 256MB or more
- Operating System: Windows 2000/XP/2003 (32bit)
- Screen and resolutions: 19" & 1024 x 768
- CD ROM required: Yes
- Network Card: 100/PCI
- Dedicated Server: Yes with 1GB or more free space
- Multifunctional Toshiba Device:
 - e-STUDIO230/280 + Scan
 - e-STUDIO350/450 + Scan
 - e-STUDIO520/600/720/850 + Scan
 - e-STUDIO281c/351c/451c
 - e-STUDIO550/650/810 + GL1020
 - e-STUDIO35/45 + GL1010/Scan
- Mouse: Microsoft or compatible pointing device

Additional Items

- WORD and RTF export functionality requires an application such as Microsoft Word for data manipulation.
- XLS and CSV export functionality requires that an application such as Microsoft Excel is available for data manipulation.
